Booking Demand Analysis

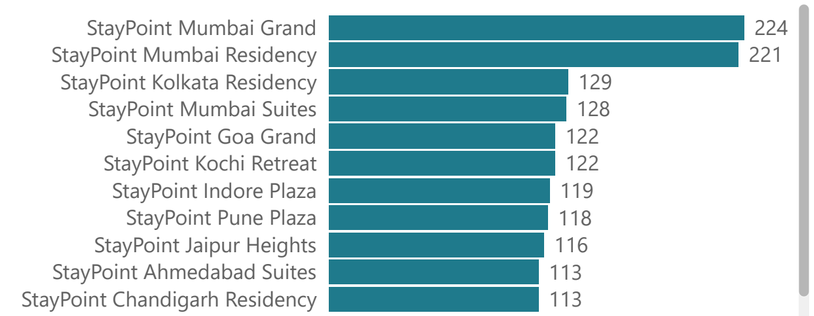

Year: All

Total Bookings	Total Revenue	Avg Booking Value	Avg Nights per Booking
2,800	45.82M	16,365	3.32

Bookings by Month

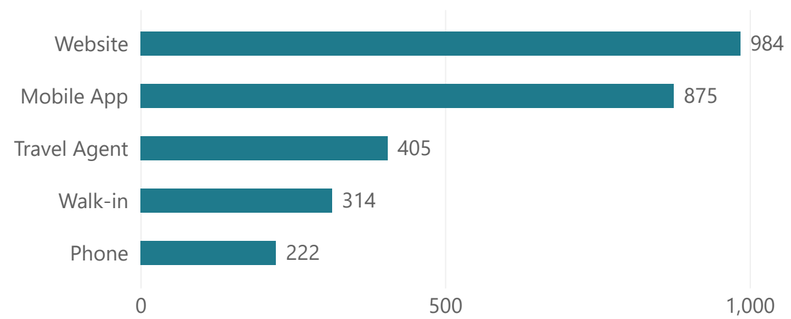

Top 10 Hotels by Bookings

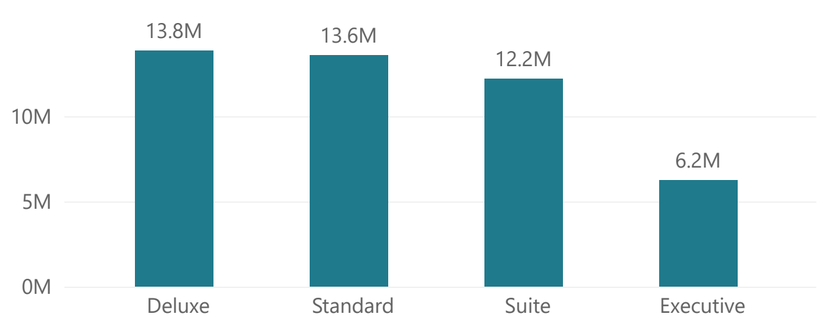

Key Insights

- 2,800 bookings brought in 45.8M. The average booking is about 16,365.
- Website (35%) and Mobile App (31%) bring two-thirds of all bookings. Phone is only 8%.
- Both Mumbai hotels lead by far (Grand 224, Residency 221). The next hotel has 129.
- Deluxe and Standard rooms earn the most (13.8M and 13.6M). Executive earns the least (6.2M).
- 2025 was the strongest year (1,048 bookings). August 2026 looks low because the data ends on 12 August.

Revenue by Room Type

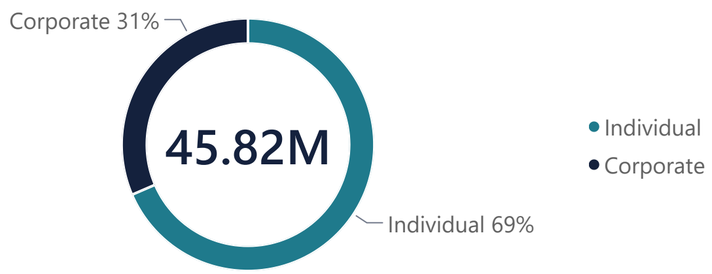

Guest Booking Behaviour

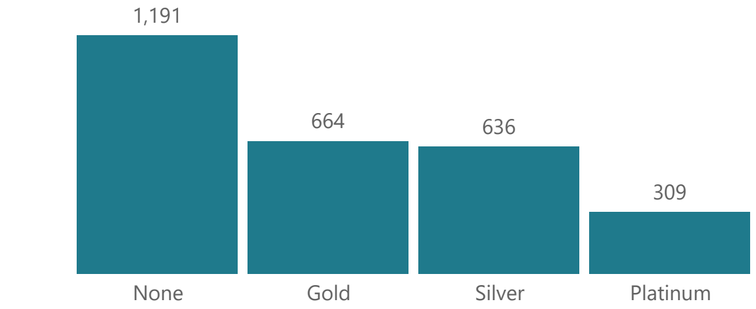

Year: All

Active Guests	Bookings per Guest	Repeat Guest %	Corporate Revenue %
339	8.3	95%	31%

Revenue by Guest Type

Bookings by Loyalty Tier

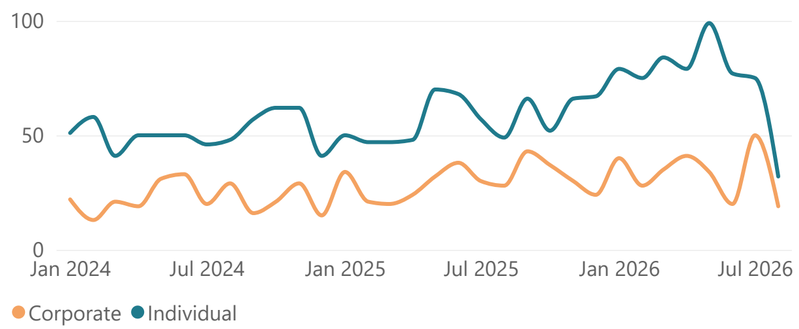

Key Insights

- 339 guests make about 8.3 bookings each, and 95% booked more than once. This is a repeat-guest business.
- Individual guests bring 69% of revenue. Corporate guests bring 31%.
- 1191 bookings come from guests with no loyalty tier. Platinum has only 309.
- Growing loyalty sign-ups is the clearest chance to increase repeat business.

Top 10 Guests by Revenue

Stay Performance

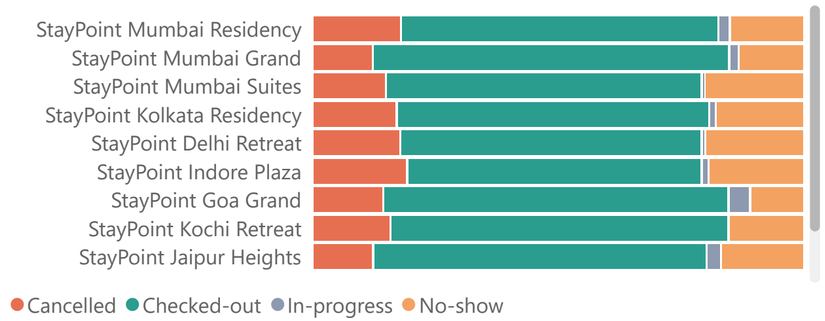

Year: All

Total Stays	Completed Rate	Cancel Rate	No Show Rate
3,200	66.2%	15.0%	16.9%

Stay Outcomes

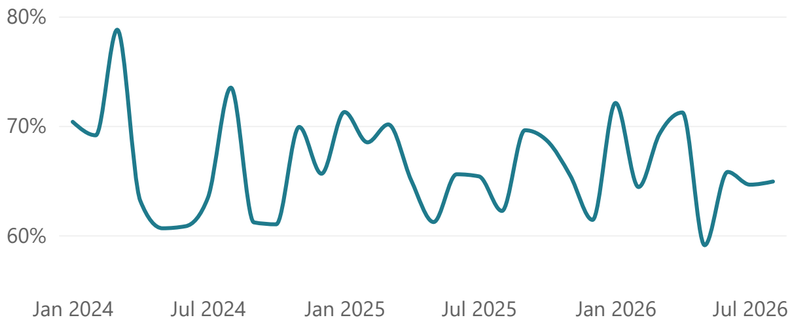

Stay Outcomes by Hotel (Top 10)

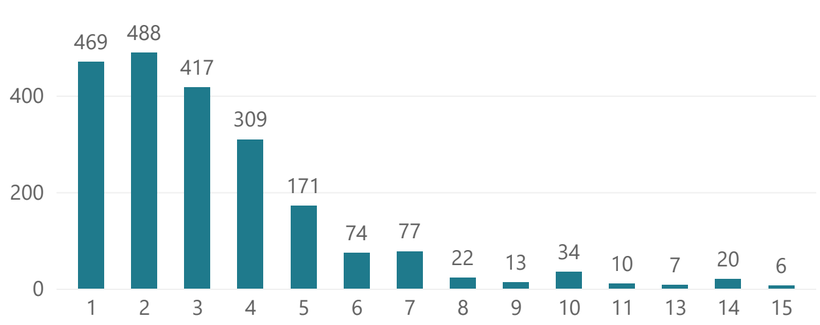

Key Insights

- Of 3,200 stays, 66% were completed, 15% were cancelled, 17% were no-shows and 2% are still in progress.
- A completed stay lasts 3.3 nights on average (about 81 hours).
- About 2 in 3 completed stays are 1 to 3 nights long.
- Only two out of three stays are completed, so there is room to improve.

Staff & Room Performance

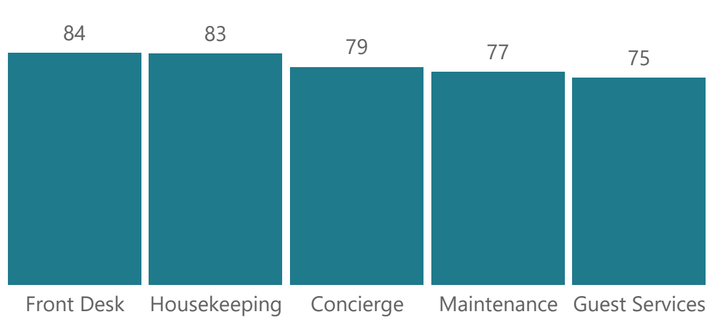

Year: All

Active Staff	Avg Staff Rating	Rooms Used	Stays per Room
70	4.16	596	5.37

Top 10 Staff by Stays Handled

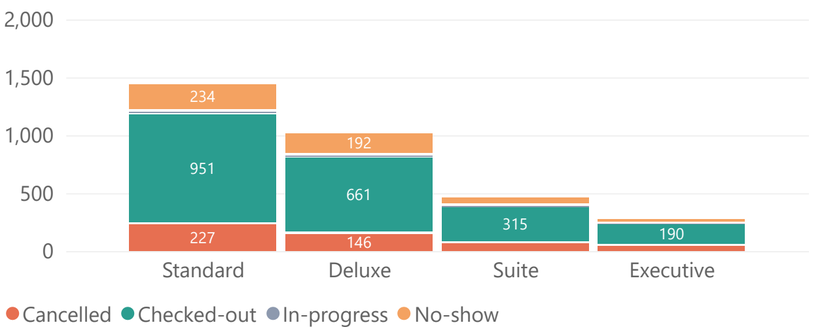

Avg Stay Hours by Department

Key Insights

- All 70 staff handled stays. The busiest staff member handled 59 stays. The average rating is 4.16.
- Standard rooms host 45% of all stays. Executive rooms host only 9%.
- Problem rates are about the same for all room types (30% to 33%), so the room type is not the cause.
- 596 rooms were used, with about 5.4 stays per room.
- Front Desk has the longest average stay hours (84). Guest Services has the shortest (75).

Stay Outcomes by Room Type

Staff Scorecard

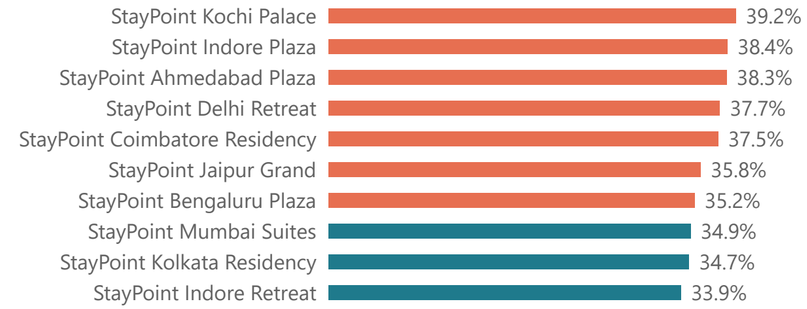

staff_name	department	Rating	Total Stays	Completed Rate

Booking & Stay Problems

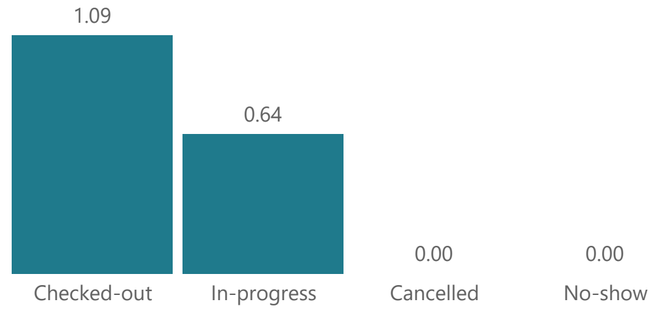

Year: All

Problem Stays	Problem Rate	Avg Service Requests	Bookings with Multiple Stays
1,022	31.9%	0.73	600

Top 10 Hotels by Problem Rate

Avg Service Requests by Stay Status

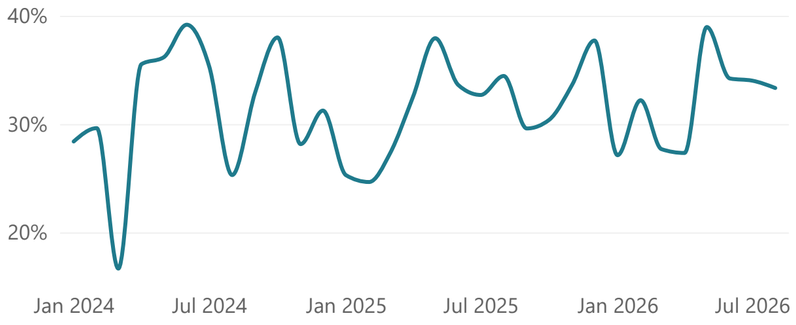

Key Insights

- About 1 in 3 stays (32%, or 1,022 of 3,200) ends as a cancellation or no-show.
- Problem rates range from 20% at Chandigarh Residency to 39% at Kochi Palace.
- Booking channels are very similar (30% to 34%), so the problem is about hotels, not channels.
- 600 bookings had two stays, usually a failed first attempt followed by a completed one. 200 bookings have no stay record.
- Failed stays have no service requests. Almost all stays with 3 or more requests were completed.

Stay Status Count by Hotel

Hotel	Cancelled	Checked-out	In-progress	No-show
StayPoint Ahmedabad Plaza	23	74		23
StayPoint Ahmedabad Suites	18	85	2	26

Total Bookings	Total Revenue	Completed Rate	Problem Rate
2,800	45.82M	66.2%	31.9%

Bookings by Month

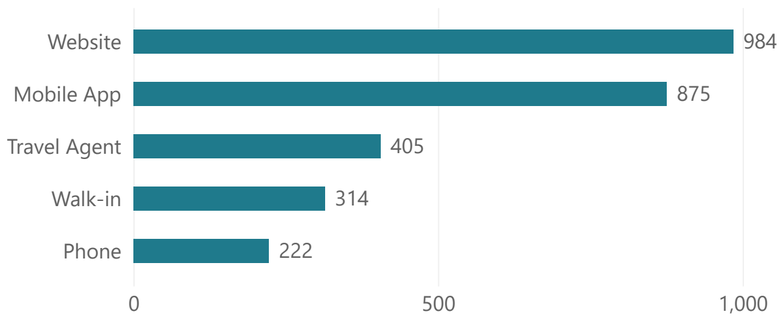

Top 5 Hotels by Revenue

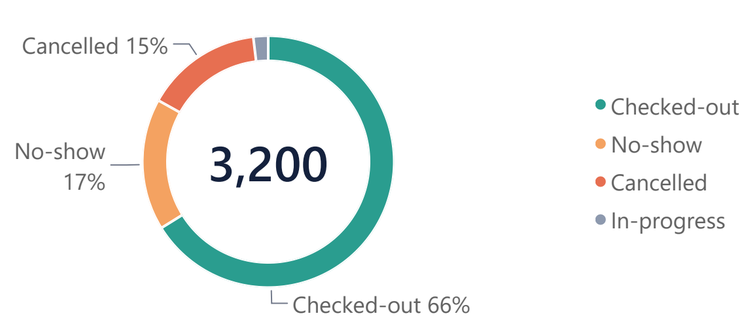

Key Findings

- 2,800 bookings worth 45.8M. Website and Mobile App bring 66% of bookings.
- Only 66% of stays are completed. 32% fail (15% cancelled, 17% no-show).
- Failures vary by hotel (20% to 39%), but not much by booking channel or room type.

Bookings by Channel

Stay Outcomes

Recommendations

- Start with reminder calls and confirmations at the hotels with the most problems: Kochi Palace, Indore Plaza and Ahmedabad Plaza.
- Offer a small deposit or a free-cancellation deadline to reduce no-shows.
- Grow loyalty sign-ups and promote the Website and App channels, which bring the most bookings.
